Method of passing <ul style="list-style-type: none"> • examination • passing with a grade after completing the cycle* <p>* mark where applicable</p> <hr style="border-top: 1px dashed black;"/> B. Forms of passing: <ul style="list-style-type: none"> • written examination: test / with open questions (exercises)/longer written statement • oral examination • oral test/colloquium • completion of a semester assignment: preparation of a design or presentation/conducting research and presenting its results(written/oral)/completion of a specified practical work • agreeing on a passing grade based on partial grades | | | | | | | | | | | | | | | | |

received during the course of the semester*
* mark where applicable

C. Basic grading criteria

Attendance for all clinical classes (attendance to be taken in every class, a student who is late for class should notify the person taking roll in order to mark himself present on the list). Individual absences must be made up in a form agreed upon with the person responsible for didactics

Receiving a positive grade (sufficient or higher) from assessment in the form of an oral colloquium finishing the classes

Definition of preparatory subjects and initial requirements

Familiarity with medical interview and a physical examination taking into account the differences of pediatrics. Familiarity with the basic laboratory and imaging examinations used in pediatrics and child surgery. Knowledge in the fields of embryology, anatomy and pathophysiology

Subject aim

Continuation of teaching the basics of organization or work on a child surgery ward as well as the principles in force at the operating block

Continuation of teaching the basics of child surgery taking into account newborn surgery

Expanding the practical abilities and theoretical knowledge regarding care over patients pre- and post-surgery

Curriculum

Classes take place at the surgical ward, treatment room and the operating block. Within the framework of classes students take part in all stages of the treatment process, from diagnosis, all the way to qualifying a patient for surgical treatment in the conditions of the operating block. Within the framework of the classes students will take part in clinical briefing and clinical and diagnostic meetings

Educational effects:

| Effect no | Description of an educational effect | Reference to field of study related effects |
|-----------|--------------------------------------|---|
|-----------|--------------------------------------|---|

Knowledge:

| | | |
|-------------------|---|-------|
| W1 | Knows the principles of nutrition of healthy and ill children, principles of protective vaccination and keeping child physical screening records | E.W2 |
| W2 | Knows and understands the causes, symptoms, principles of diagnosis and therapeutic treatment in the most common children's diseases: Acute and chronic stomachaches, regurgitation, diarrhea, constipation, bleeding from the digestive tract, peptic ulcer disease, inflammatory bowel diseases, diseases of the pancreas, cholestasis, and diseases of the liver, other acquired diseases and inborn defects of the digestive tract, Infections of the urinary system, inborn defects of the urinary system, nephrotic syndrome, kidney stone diseases, acute and chronic renal failure, acute and chronic kidney inflammation, systemic renal diseases, urinary disorders, vesicoureteral reflux | E.W3 |
| W3 | Knows and understands the causes, symptoms, principles of diagnosis and therapeutic treatment regarding the most common diseases requiring surgical intervention, taking into account the differences of childhood, especially: a) acute and chronic diseases of the abdominal cavity b) chest diseases c) diseases of the limbs and head d) fractures and organ traumas | F.W1 |
| W4 | Knows selected aspects of pediatric surgery including traumatology and otorhinolaryngology, acquired defects and diseases which are an indication for surgical treatment in children | F.W2 |
| W5 | Knows the principles of qualifying for and performing the basic surgical procedures and invasive diagnostic and medicinal procedures | F.W3 |
| W6 | Knows the most common complications of the above mentioned procedures and interventions | F.W4 |
| Abilities: | | |
| U1 | Conducts a medical interview with the child and its family | E.U2 |
| U2 | Conducts a physical examination of a child of any age | E.U4 |
| U3 | Conducts a physical examination of a child of any age | E.U16 |
| U4 | Uses the basic surgical instrument | F.U2 |
| U5 | Follows the principles of asepticism and antisepticism | F.U3 |
| U6 | Can treat a simple wound, put on and change a sterile surgical bandage | F.U4 |
| U7 | Evaluates the results of a radiologic examination as far as the most common types of fractures, especially fractures of the long bones | F.U7 |
| U8 | Evaluates the results of a radiologic examination as far as the most common types of fractures, especially fractures of the long bones | F.U8 |
| U9 | Can keep the patient's medical documentation | E.U38 |
| U10 | Can perform selected complex procedures and medical activities for an under-18-year-old patient, including: Conducts a medical interview with a child patient and his parents Conducts a physical examination of a child patient. Becomes familiar with the principles of caring for and feeding a newborn and an infant Conducts differential diagnosis of the most common diseases of child patients Plans diagnostic, therapeutic and prophylactic treatment in the most common diseases of child patients Performs the basic rescue activities, especially for child patients and adult patients, including those with the use of a phantom | H.U21 |

| | | |
|-----------------------------|--|--|
| | Participates in the planning of a rehabilitation program of the most common child diseases | |
| Social competencies: | | |
| K1 | Can establish and maintain a deep, full of respect contact with the patient | |
| K2 | Put the good of the patient above everything else | |
| K3 | Protects patient confidentiality and patient rights | |
| K4 | Is aware of his own limitation and the need for constant learning | |

| | | | | | |
